## Cooperative 3.0

- Spreefeld Genossenschaft
- id22: Institut für kreative Nachhaltigkeit

Spreefeld is a new cooperative developing a variety of spaces for housing, culture, educational, cultural and gardening uses on the shore of the Spree.

id22 is at home at the Spreefeld, working for a culture of sustainable urban development.

---

### Presentation (DE, EN)

Spreefeld is a cooperative, with a process orientation and an emphasis on self-help, affordability in new construction, intergenerational, community-oriented working and living, ecological (passive building standard), barrier-free housing, encouraging public access to land and water. Shared-living cohousing groups, car-free landscape, social and artistic initiatives. 120 residents, 50 people working on site.

### Workshop (DE / EN, 1 hour, ~25 people)

Answering questions about the development of the cooperative.  
Discussing ownership and organisational structures.  
Discussion of the Spreeacker Initiative including community gardening, public shore path development, educational and cultural projects.

## Gut Gelaufen

Get fit by doing good

**GUT GELAUFEN**  
Gemeinsam mehr bewegen

---

### Presentation (DE, EN)

GUT GELAUFEN is the Berliner version of GoodGym, an awesome british social innovation. The idea is to step out of the treadmill, to run with a mission, find motivation to train by helping others, allowing even super busy people to squeeze volunteer work into their schedules.

Every monday, at 19h30, we run for about 6km and help out at social organizations. We digg earth, move wood and laugh a lot while sweating. We train "das soziale Bindegewebe", i.e. the social connective tissue.

Our real workshop will take place before the event: so come run with us and show your biceps on the Bootshaus. At the festival I'll quickly present the 2nd part of GUT GELAUFEN: the senior-coaches.

**bicycleope**

power producer urban furniture

---

### Presentation (DE / EN)

Unser bicycleope ist nicht nur als ein stromerzeugendes urbanes Möbelstück. Vielmehr ist es ein ganzes System, das auf Partizipation, Kollaboration und voneinander lernen, sowie Umweltschutz und Verantwortung basiert. Nach vielen Jahren Erfahrung in der Entwicklung von Projekten im urbanen Raum, wissen i Collective e.V. und Zuloark, dass ein geschlossenes Objekt nicht die absolute Identifikation der Einwohner schafft und zum Scheitern bedroht ist. Unseres Projekt geht viel weiter, als der Wunsch die Nachbarschaft durch ein Lichtmöbel schön zu gestalten: vielmehr beabsichtigen wir, dass die Einwohner selber die Prototypen, innerhalb eines vorgegebenen Rahmen entwerfen, sich bei dem Aufbau beteiligen, und die daraus entstehende Artefakten für ihr eigenes Vergnügen benutzen. Darüber hinaus sollen spielerisch Werte, wie selbst erzeugte Energie und die Kraft, die es kostet, sie zu erzeugen im Mittelpunkt des Prozesses stehen.

### Workshop (DE / EN, 2hours, 15-20 people)

Könnt ihr euch vorstellen, ein bicycleope vor der Haustür zu haben?

Wie ein bicycleope genau aussieht, hängt von der Zusammenarbeit mit den Nachbarn ab. Im Rahmen von Emergent Berlin möchten wir Euch einladen, mehr über das bicycleope zu erfahren und neue Ideen für das Projekt zu diskutieren. Durch spielerische Dynamiken werden wir den Geist vom bicycleope in die Köpernickerstr. aufrufen und ihn mit euch und dem Ort bekannt machen.

BERATER

„Let's go social - wie gründe ich ein  
Sozialunternehmen?“

.garage  
berlin

### Presentation (DE / EN)

Die Idee ist Besucher für den Workshop von Thomas Mampel zu begeistern. Zunächst will ich zwei inspirierende Beispiele nennen, was junge Menschen tun können, um die Welt zu verbessern.

Dann wäre die Frage, wenn mich das begeistert und ich möchte auch etwas dazu beitragen, wie gründe ich denn ein Sozialunternehmen und was ist das überhaupt.

Dann stelle ich kurz Thomas Mampel vor und sage noch etwas zur .garage und den .ab's. Zum Schluss lade ich zum Workshop ein. In dem ganz praxisnah geklärt wird wie es funktioniert ein Sozialunternehmen aufzubauen.

Selbstständig mit einer guten Idee  
Starting up with a great idea

Workshop (DE / EN, ~1.5 hours, 25 people max.)

EN:

The number of people intending to found their own socio-economic, non-profit and sustainable business is constantly increasing. No matter how dear the cause, social entrepreneurial spirit requires thorough preparation, too. In this two-hour-workshop we will introduce you to the relevant existing legal structures and forms of organizations in the broad and colorful field of the social sector. We will talk about the basic principles of founding a union (the union or association still is the standard form of organization in the social field) and of alternativ forms of organization ( e.g. GmbH, gGmbH, UG and gUG) and have a look at the characteristic features of „non-profit“. The workshop's approach is to be in step with actual practice. Please feel invited to bring any questions you might have regarding the matter of socio-economic businesses in Germany and share your experiences up to this point.

DE:

Auch im sozialwirtschaftlichen bzw. gemeinnützigen Bereich nimmt die Zahl derer zu, die sich mit einer guten Idee selbständig machen wollen. Und auch im Non-Profit-Bereich will eine Gründung gut vorbereitet und geplant sein. In einem zweistündigen Workshop stellen wir wichtige Rechts-/Organisationsformen für Projekte im sozialen Bereich vor. Wir erläutern die wichtigsten Grundlagen der Vereinsgründung (nach wie vor ist der Verein die Standard-Organisationsform im sozialen Bereich) sowie alternativer Organisationsformen (v.a. GmbH, gGmbH, UG und gUG) und bieten einen Überblick auf die Besonderheiten der Gemeinnützigkeit. Der Workshop soll sehr praxisorientiert gestaltet werden. Es gibt auf jeden Fall auch Raum für Eure mitgebrachten Anliegen, Fragen und Erfahrungen.

## Workshop for a heavenly society

---

### Presentation (DE / EN)

The idea behind the Sharehouse, how it started in South Africa with no funding and why we think sharing can make all rich. We call it Social Upcycling, provocatively, because the value everyone has, the talent and abilities, were given from the beginning. The Sharehaus is the family and the think tank where we learn how to share properly again, on all levels of life.

The Sharehaus has an actual location as a neighbourhood shop with projects in Kreuzberg, and will be a blueprint for other neighbourhoodshops.

### Workshop (DE / EN)

Workshop is open for all, talking, filming statements of Personal Utopias, and teaching how to fold papercranes.

## Das Baumhaus Berlin

DAS BAUMHAUS

An active space for people who want to make Berlin and the world a better place...

### Presentation (DE / EN)

Telling The Story Behind Das Baumhaus  
Das Baumhaus is a project to build an indoor tree house dedicated to the idea of bringing people together to engage with each other in meaningful ways. It will be a platform for broad spectrum sustainability (personal, social, cultural, aesthetic, ecologic & economic). For example... We are the organizers of the Emergent Berlin Festival and developers of the "Open Greeting Zone" social innovation.

### Workshop (DE / EN, 90min, 50 people)

Das Baumhaus is a project for a public space, werkstatt and collective from Wedding. The idea: a "platform for people who want to make the world a better place" that connects local changemakers and supports a sustainable urban culture. Now it shall start: neighbors, artists and builders together want to build an "indoor-treehouse", next year the baumhaus shall open.

Find out about how you can get involved to help realize and support the Baumhaus project with your time, skills, services, materials and money donations. We will do a relatively short presentation on the concepts and strategies behind the Baumhaus project.

Afterwards, we will answer questions, listen to your ideas and discuss the various ways we can collaborate to make the Baumhaus project great for Wedding and Berlin.

## Lernwerkstatt X

„True learning takes place when you are fully engaged in something you care about in an environment that fosters your innate creativity.“

---

### Presentation (EN)

Learning is a combination of theory and practical experience. However, the most important and often most undervalued aspect of the learning process is the underlying passion and motivation needed. Without these it's often too difficult to maintain focus and be willing to put in the necessary hard work to accomplish specific goals.

The „Lernwerkstatt X“ (working title) aims at creating a space where all participants can engage in their very own personal learning process in a supportive community environment. The foundation of the community atmosphere will be the „gifting“ business model.

### Groundbreaking personal development and coach training

---

#### Presentation (DE / EN)

Creative Consciousness will give a short inspiring talk, exploring how personal development and coaching can support you in building a sustainable inner life.

#### Workshop (DE / EN, ~2 hours)

Creative Consciousness will give an interactive workshop called „How to coach yourself“. Ability to successfully manage your inner reality is the key to showing up and living your legacy. In our turbulent world, in our dynamic city of Berlin, it is crucial to have the tools for staying present, grounded, and on track. In this workshop, Creative Consciousness will empower you with coaching tools that you can apply for coaching yourself and developing a sustainable inner life – which will lead to a more sustainable outer life. When you are able to coach yourself, you become a creator of the life you want to live.

## Bed & Breakslow

BED & BREAKSLOW is a name for professional psychological and psychotherapeutic services accompanied by delicious home-made food served in a cozy private apartment in Berlin- Neukölln

---

### Presentation (DE / EN)

BED relates to intimacy, sexuality, relationships. BED knows the deepest secrets. BED saw you naked. BED is a comfort zone. In BED you feel warm and safe. BED is for chill-out, pleasure, relax, recovering, dreaming, re-collecting, digesting experiences, uniting, letting the unconscious talk, forgetting, ending and starting.

BREAKSLOW is a re-defined breakfast. FAST is replaced by SLOW to celebrate every moment and enjoy every bite. BREAKSLOW is the first meal of a day and as that it is an always new beginning and opportunity for a change. Hence you can also read it as BREAK SLOW- slowly break routines that stay on the way to happiness, fulfilment and success.

The BED & BREAKSLOW is a small rebellion against all the unnecessary seriousness and coldness surrounding psychotherapy. At the end, what people often need is nothing more than being listened to, understood, and crying tears out directly to a cup of tea and a piece of cake. During the presentation expect explanation of the idea, philosophy, forms of the offered food&psychotherapy services, and meet the person behind the project-- a psychologist and therapist Anna Hania Hakiel.

### Workshop (DE / EN, 1.5 hours, 6 people)

BED & BREAKSLOW CLUB is a name for a served regularly yummy late breakfast (actually: a breakslow) with a workshop focusing on sexuality, intimacy, relationships. Strangers meet to eat together delicious homemade food and by the means of art, bodywork, storytelling, creativity and more classical psychological training make important and enjoyable steps towards self-growth and self-discovery in the areas of sexuality and intimate relationships (with others and with themselves).

During the Emergent Festival expect a teaser of what the B&Bslow Clubbers experience during the gatherings. There will be a small workshop titled „Sexuality from wonderland“ and small homemade snacks.

### Workshop (DE / EN, 2 hours)

EN:

Many of us long for more realness and depth of connection in our relationships in daily life. But how does that happen? How can I generate trust and depth of connection and get past the small talk?

This workshop addresses these questions. We will give you tools to play and explore with, and a safe space in which you are invited to take a risk, to step forward into more authenticity than you would perhaps normally dare. Boundaries are absolutely respected! The magic of connection always arises from letting yourself and the other be exactly as they are.

DE:

Viele von uns wünschen sich mehr Echtheit und tiefe Verbundenheit in ihre Beziehungen im Alltag. Aber wie kann das gehen? Wie kann ich Vertrauen und Tiefe kreieren und an dem Small Talk vorbeikommen?

Dieser Workshop bietet einen Raum zum Spielen und Forschen mit diesen Fragen, und praktische Werkzeuge. Du bist eingeladen - wobei deine Grenzen und die von Anderen absolut respektiert werden - ein Risiko ein zu gehen, etwas mehr Authentizität zu wagen als du dir vielleicht normalerweise zutrauen würdest. Es wird viel gelacht bei uns - und Tränen sind erlaubt. Die Magie der Verbundenheit entfaltet sich wenn man sich selbst und sein Gegenüber begegnet im (genau) so-sein wie du gerade bist, und dich dabei spürbar zu machen für den anderen.

# Konferenz der Visionäre Berlin

KONFERENZ DER VISIONÄRE  
BERLIN

Konferenz der Visionäre vs.  
C.A.N. Consciousactionnetwork.com

## Presentation (DE)

"Conference of the Visionaries" tries to clear up and animates to discuss as to exchange.

We invite pilot projects, scientists, healers, associations, concepts and initiatives to introduce themselves and to be introduced. Inspiration, experiences and creative leeway is given to a wide audience while the strength of society is reinforced. Visionaries can make use of the conference rooms of the biology-yoga hotel "Essentials" to give talks, workshops and presentations. Additionally the vivid exhibition "Inner Wealth" is integrated (curator: Nicole Loehser). By offering our family program and a variety of main subjects we open the doors for everyone interested.

About C.A.N. (Consciousactionnetwork.com)  
Inspiring Stories Connecting Us All

All over the world people take action to positively transform the lives of others. People work hard to help our planet be the best it can be. Experience their remarkable stories. War, poverty, crime, starvation, corruption, illness, and injustice are some of the great challenges facing earth and the human species. We hear of this all day, every day in the media and elsewhere. Our constant exposure to 'bad' news leads many of us to lose hope in each other and ourselves, to feel powerless to improve anything. In truth people all over the world spend time, energy and personal resources cultivating tolerance, joy, and peace. In every crisis lives a seed of beauty and the possibility for something better.

Meet inspiring people taking action.  
See the people and places in transition.  
Learn of critical global issues.  
Know your power.

Make a Difference!

## entretempo kitchen gallery

entretempo  
kitchen  
gallery

It's a project space, kitchen  
and gallery connecting food  
with art.

---

### Presentation (DE / EN)

ENTRETEMPO KITCHEN GALLERY was founded by the Berlin based food artist Tainá Guedes. It's a project space, kitchen and gallery connecting food with art. Food becomes a medium of communication and instrument of art in order to make a statement, provoke emotions or inspire the „observer“ (or eater) to new reflections on food.

Centered around the japanese principle „mottanai“ (reduce, re-use, recycle) we promote a lifestyle of sustainability, (social) awareness and solidarity. Doing this through food and art is a whole new approach. With our projects, workshops and exhibitions we not only want to provide information about the social and cultural impact of food but also connect people and get them involved with their own ideas, thoughts and creativity. Because food is a common base we are able to create hands-on (art) experiences for everybody, adressing also families with little kids.

In our recent exhibitions we related to food topics like the colony collapse disorder, globalization, food waste, the new sharing society and many more.

Food matters. It can even change the world.

## Sustainability Drinks, Green Buzz

GreenBuzz develops a global networking platform and organizes local networking events like Sustainability Drinks Berlin.

---

### Presentation (EN)

GreenBuzz is building a global network for sustainability professionals and organizes local networking events to support virtual and real-life connections. While GreenBuzz Berlin is currently in the process of being founded, Sustainability Drinks Berlin has been established at the beginning of 2014 as an event series to promote an active sustainability movement with currently over 500 members.

Driven by a passion for sustainability and an urge to stimulate positive change, Sustainability Drinks organized by GreenBuzz Berlin facilitate community building, local and global collaboration and the integration of sustainability in business strategy and individual practice on a regular basis.

## Berlin Burners

One short sentence describing your initiative  
We're inspired by the spirit of the Burning  
Man festival and make things happen in  
Berlin, Burner style.

---

### Presentation (DE / EN)

Burning Man is more than a huge Art- and DoltYourself-Festival in a desert in Nevada, USA. It's based on 10 principles like Leave No Trace or Civic Responsibility, which reach far beyond that one week and also help people to think about sustainability. We'll try to explain the lifestyle based of these principles, our local Burner community and what our next basic steps are.

## Busking For Berlin

**Film screening 2**  
(House 14, EG)

„A unique take on the world of street performance“

Have you ever wondered what it might be like to live the life of a street musician? Australian documentary maker Carl Tomich wanted to experience this life, so he came to Berlin in 2013 to make a movie about the Berlin street musician scene.

This film takes you on a journey into the lives of 9 street artists and their stories, to make things more interesting Carl tried his luck at spending 6 months in their shoes only surviving off the money he made on the street, coming to Berlin only with 30 euro and a guitar.

Busking for Berlin is a feature length documentary showing you a different and more unique side of Berlin's street music culture.

This film features some of Berlins most talented and up and coming street performances, such as Alice Phoebe Lou, Temple Hayes, Puto Production, Ruperts Kitchen, Charity Children, Hera Sparnon, Stephen Prescott, Frederik Konradsen & Max Buskohl.
